

## **Grading Information For Residential Wiring**

This class will require the students to complete worksheets and to read chapters in the textbook. You must understand the principles behind electricity in order to work with it safely.

There will be quizzes based on the reading and the worksheets plus the students will be graded on character (30 possible points per week).

I grade on a total points system so all you have to do is take the total points you have earned and divide that number by the total points possible, and you will come up with your percentage.

Example:

Let's say at midterm (4 weeks period) you have 100 character points out of 120 possible. Let's say you have 60 out of 80 points on a couple of quizzes. Then let's say you have 30 out of 40 points from worksheets.

All together you have earned 190 points out of a possible 240 points.

$190 \text{ divided by } 240 = 79\%$

So your mid term grade would be a C+.

**IT IS YOUR RESPONSIBILITY TO KEEP UP ON YOUR GRADE AND TO MAKE SURE YOU HAVE TAKEN ALL QUIZZES AND HAVE EVERYTHING TURNED IN THAT REQUIRES GRADING.**

**I WILL NOT ALLOW STUDENTS TO COME INTO THE SHOP AND DO VERY LITTLE TO NOTHING. YOU WILL NOT PASS MY CLASS UNLESS YOU ARE WORKING EVERY DAY!**

**I will never give you a test where you don't know what is on it! If you fail my tests...it will be because you did very little to study the given information.**
